

Creswell School District 40

Code:
Adopted:

EFA

Local Wellness

{Required. Title 7 C.F.R. 210.31(a) requires local education agencies to “establish a local school wellness policy for all schools participating in the National School Lunch Program and/or School Breakfast Program...”. The law describes the policy as “a written plan that includes” various components intended to improve student wellness. This policy is designed to meet the requirements for a wellness policy and provide the framework for the district’s plan. Previously these requirements were split between the policy and an administrative regulation (AR). All required and/or related content is now included in the model policy, therefore OSBA recommends deleting the AR if the district previously included it in the board’s policy manual. Districts should consult with stakeholders in the process of adoption and incorporate language that meets the unique needs of the district.}

The district is committed to the optimal development of every student and believes that a positive, safe and health-promoting learning environment is necessary for students to have the opportunity to achieve personal, academic, developmental and social success.

To help ensure students possess the knowledge and skills necessary to make healthy choices for a lifetime, the superintendent shall prepare and implement a comprehensive district nutrition program consistent with state and federal requirements for districts sponsoring the National School Lunch Program (NSLP) and/or the School Breakfast Program (SBP). The program shall reflect the Board’s commitment to providing adequate time for instruction that fosters healthy eating through nutrition education and promotion, serving healthy and appealing foods at district schools, developing food-use guidelines for staff and establishing liaisons with nutrition service providers, as appropriate.

POLICY IMPLEMENTATION, MONITORING, ACCOUNTABILITY AND COMMUNITY ENGAGEMENT

Implementation

The district shall manage and coordinate the implementation of this local wellness policy.

Implementation will consist of, but not be limited to, the following:

1. Delineating roles, responsibilities, actions and timelines specific to each school;
2. Generating and disseminating information about who will be responsible to make what change, by how much, where and when;
3. Establishing standards for all foods and beverages provided (but not sold) to students during the school day on participating school campuses;
4. Establishing standards and nutrition guidelines for all foods and beverages sold to students during the school day on participating school campuses that meet state and federal nutrition standards for NSLP and SBP, competitive foods, permit marketing of same that meets the competitive food nutrition standards, and promotes student health and reduces child obesity; and
5. Establishing specific goals for nutrition promotion and education, physical activity, physical education and other school-based activities that promote student wellness.

The Board designates the [superintendent] [principal(s)] to be responsible for ensuring each school meets the goals outlined and complies with this policy.

Notification of Policy

The district will inform the public about the content and implementation of the local wellness policy, and post the policy and any updates to the policy on the district website annually. Included will be, if available, the most recent assessment of the implementation, and a description of the progress being made in attaining the goals of the policy.

The district will publicize the name and contact information of the district or school official(s) leading and coordinating the policy and information on how the public can get involved with the local wellness policy. This information will be published on the district’s website and in district communications.

Triennial Progress Assessments

At least once every three years, the district will evaluate the implementation of this policy and its progress with a triennial assessment and produce a progress report that will include:

1. The extent to which schools under the jurisdiction of the district are in compliance with the policy;
2. The extent to which the district’s policy compares to model local school wellness policy; and
3. A description of the progress made in attaining the goals of the district’s policy.

The district will publish the triennial progress report on the district website when available. The district will update or modify the policy based on results of the triennial assessment.

Community Involvement, Outreach and Communications (Review of, and Updating Policy)

The district will actively communicate ways in which the community can participate in the development, implementation and periodic review and update of the local wellness policy. The district will communicate information about opportunities on the district’s website. The district will ensure that communications are culturally and linguistically appropriate to the community.

Parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the Board, school administrators, and the general public will be solicited to participate in the periodic review and update of the local school wellness policy.

NUTRITION PROMOTION AND NUTRITION EDUCATION

Nutrition promotion and nutrition education positively influence lifelong eating behaviors by using evidence-based strategies and techniques and nutrition messages and by creating food environments that support healthy nutrition choices.

Nutrition promotion, including marketing and advertising nutritious foods and beverages to students, will be implemented consistently through a comprehensive and multi-channel approach, (e.g., in the classroom, cafeteria and at home) by staff, teachers, parents, students and the community

School Meals

The district's available meal program(s) will operate to meet meal pattern requirements and dietary specifications in accordance with the Healthy, Hunger-Free Kids Act and applicable federal laws and regulations.

The principals will support nutrition and food services operation as addressed in Board policy EFAA – District Nutrition and Food Services and its accompanying administrative regulation EFAA-AR – Reimbursable Meals and Milk Programs.

Competitive Foods and Beverages

The district controls the sale of all competitive foods. All foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed Smart Snacks Standards¹.

Celebrations and Rewards/Incentives

All foods and beverages offered on the school campus are encouraged to meet the nutrition standards set by the USDA and the Oregon Smart Snacks Standards. This includes, but is not limited to, celebrations, parties, and classroom snacks brought by parents.

PHYSICAL ACTIVITY AND PHYSICAL EDUCATION

A quality physical education program is an essential component for all students to learn about and participate in physical activity. The district will develop and assess student performance standards and program minute requirements in order to meet ODE's physical education content standards and state law.

Physical activity should be included in the school's daily education program for grades K through 12 and include regular, instructional physical education, as well as co-curricular activities and recess.

In order to ensure students are afforded the opportunity to engage in physical education and physical activity in the school setting, the following goals are established:

1. Physical education will be a course of study that focuses on students' physical literacy and development of motor skills;
2. Staff encourages and provides support for parental involvement in their children's physical education;
3. Physical education courses will be the environment where students learn, practice and are assessed on developmentally appropriate knowledge, skills and confidence to become physically literate;
4. Instruction, provided by adequately prepared teachers, i.e., licensed or endorsed to teach physical education, will meet the state adopted academic content standards for physical education (Oregon Revised Statute (ORS) 329.045). Teachers of physical education shall regularly participate in professional development activities annually;

¹ Oregon Department of Education, [Oregon Smart Snacks Standards](#)

5. Every public school student in kindergarten through grade 8 shall participate in physical education for the entire school year. Students in kindergarten through grade 5 shall participate for a least 150 minutes during each school week, and students in grades 6 through 8 for at least an average of 150 minutes during each school week, as calculated over the duration of a school year.

Other Activities that Promote Student Wellness

The district will integrate wellness activities throughout the entire school environment (districtwide). The district will coordinate and integrate other initiatives related to physical activity, physical education, nutrition and other wellness components so all efforts are complementary, not duplicated and work toward the same set of goals promoting student well-being, optimal development and strong educational outcomes.

Employee Wellness

The district encourages staff to pursue a healthy lifestyle that contributes to their improved health status, improved morale and a greater personal commitment to the school’s overall wellness program. Many actions and conditions that affect the health of staff may also influence the health and learning of students. The physical and mental health of staff is integral to promoting and protecting the health of students and helps foster their academic success. The district’s Employee Wellness Program will promote health, reduce risky behaviors of employees and identify and correct conditions in the workplace that can compromise the health of staff, reduce their levels of productivity, impede student success and contribute to escalating health-related costs such as absenteeism.

The district will collaborate with community partners to identify programs, services and/or resources to compliment and enrich employee wellness endeavors.
