BUDGET MESSAGE

Budget Message 2026-27 Fiscal Year

The Creswell School District budget message is intended to provide a summary of the proposed budget and how this budget differs from the prior year. In developing this budget, our focus continues to be on the district's mission: *"To provide a dynamic and innovative learning environment that prepares students for college, career and life."*

As of the publication of this document, the District continues to face challenges at the local, national, and global levels. Economic conditions remain uncertain and increasingly complex due to inflationary pressures, rising operational costs, and continued fluctuations in student enrollment. This budget is built on the official estimate issued by the Oregon Department of Education on March 2, 2026. The 2025–27 biennial budget and State School Fund are predicated on an \$11.3 billion State appropriation and a 49/51 split.

Current Financial Picture:

At this time, I am reporting that we are projected to end the year with a General Fund balance of approximately \$2,000,000. This is an increase of \$1,000,000 above our budgeted contingency of \$1,000,000 for the 2025–26 fiscal year. Our ending fund balance has grown due to intentional cost-saving measures and reduced staffing expenses through attrition, allowing the District to build reserves in preparation for the anticipated fiscal funding cliff.

In recent years, grant revenues have allowed the District to absorb roll-up costs, maintain contractual agreements, preserve student programs and services, and provide staff compensation increases. However, many of these grant funding sources have decreased or are now expired, requiring the District to transition to a more sustainable long-term financial model.

The District continues to monitor enrollment trends, staffing levels, healthcare costs, utility increases, and legislative funding decisions to ensure fiscal stability while maintaining high-quality educational opportunities for students.

Revenue Challenges:

The anticipated funding shortfall is primarily due to declining enrollment, inflationary increases to salaries and benefits, insufficient state funding growth, and the expiration of federal pandemic relief funding.

- The majority of the enrollment decline is attributed to lower birth rates, which have resulted in reduced kindergarten enrollment over the past five years. Additional contributing factors include transfers to charter schools, transfers to neighboring districts, and increased enrollment in homeschooling programs.
- State School Fund allocations are largely enrollment-driven; therefore, continued declines in student enrollment directly impact district revenue.
- With the current \$11.3 billion State School Fund estimate, the State of Oregon is not providing sufficient funding in the 2025–27 biennium to fully support increasing operational costs and contractual salary obligations.
- Inflationary pressures continue to affect transportation, utilities, supplies, insurance, maintenance, and contracted services, further increasing the District's operating costs.
- Although federal ESSER relief funding has expired, the District continues to experience ongoing costs that were temporarily supported through those funds during the pandemic recovery period.

Expenditure Issues Approach:

To address the projected funding gap and maintain financial stability, the District continues to evaluate expenditures and implement long-term cost containment strategies.

- To reduce rising special education costs and better serve students within the District, we are implementing expanded in-district Special Education programming designed to meet student needs on campus and reduce costly out-of-district placements.
- In anticipation of future funding shortfalls, the District has reduced staffing levels to better align with enrollment trends through natural attrition, including retirements, resignations, and internal transfers to open positions. We will continue to utilize this strategy whenever possible to minimize direct impacts on employees and programs.
- We are proposing to maintain the budget contingency at 5% for the 2026–27 budget year. While this remains unchanged from the current year, it is lower than contingency levels maintained in prior years and reflects the District’s effort to balance fiscal stability with operational needs.
- Contracts for materials, supplies, and services continue to be reviewed and analyzed for potential cost-saving opportunities and operational efficiencies.
- The District will continue to prioritize expenditures that directly support student learning, safety, and strategic improvement goals.
- In preparation for the 2027–28 budget cycle, the District anticipates the need for additional reductions in staffing and programs in order to maintain a balanced budget if enrollment declines and funding limitations continue.

Regardless of the many challenges we face, we remain committed to developing a budget that best serves the students of our community. District staff are proposing a budget that allows the District to continue current student service programs while moving forward with implementation of the Continuous Improvement Plan developed through the Creswell community Strategic Planning Process in 2022 to address the needs of all Creswell School District students (see addendum).

In addition, the District continues to utilize targeted grant funding to support strategic student initiatives through the Student Investment Account (SIA) and High School Success (HSS) funds, as well as strategic facility initiatives through the 2023 bond and Seismic grants.

The proposed budget reflects the District’s continued commitment to fiscal responsibility, long-term sustainability, and providing high-quality educational opportunities for all students.

Therefore, I respectfully recommend the attached 2026–27 Creswell School District Budget to the Budget Committee for adoption.

Sincerely,
Michael Johnson, Superintendent

EXECUTIVE SUMMARY

EXECUTIVE SUMMARY

BUDGET FORMAT AND PROCESS

This summary contains an overview of the budget with additional information and graphs to assist the reader. The budget is arranged with the General Fund, Special Revenue Funds (i.e., grants, facilities, nutrition services, vehicle replacement, and student related funds), Debt Service Funds and the Capital Project Fund.

Each year, the School Board adopts a financial plan (budget) for the upcoming school year that guides staff in how funds are spent. District staff initially puts the plan together with input from staff and community members. Then, the citizen Budget Committee reviews the Proposed Budget and provides feedback. After a review and possible revisions, the Budget Committee approves the budget. The School Board then adopts the financial plan and it becomes the Adopted Budget for the coming school year.

This budget document is the primary vehicle used to present the financial plan and the results of operations of the district. The primary purpose of this document is to provide timely and useful information concerning the past, current, and projected financial status of the District in order to facilitate financial decisions that support educational goals of the District.

BUDGET OVERVIEW & HIGHLIGHTS

Federal, state, and local guidelines frame the budget development process. The annually adopted budget includes the General, Special Revenue, Debt Service and Capital Project funds. Total expenditures for all funds are \$46,114,515.

GENERAL FUND

The General Fund is typically the largest of the District's funds and covers the operations of schools, including expenditures for salaries and benefits, supplies, textbooks, utilities, transportation of students, and other general expenditures.

REVENUES

General Fund revenues are projected to be \$19,880,300 for the 2026-27 school year. This equals an increase of \$669,825 from the prior year. This total is based on an analysis of our State School Fund (SSF) estimate and other local revenue. The SSF accounts for approximately 59% of the General Fund.

Property tax funds account for approximately 23% of the General Fund. The permanent property tax rate for the General Fund is set at \$4.6426 per thousand plus the bond assessment that is estimated to be \$1.92 per thousand assessed value.

EXPENDITURES

Since the education of students is a service profession, payroll expenditures, including benefits, comprise approximately 71% of planned General Fund expenditures. Budgeted expenditures of salaries and benefits are determined in accordance with collective bargaining agreements.

SPECIAL REVENUES

Grants – The special revenue funds are comprised of grants that are budgeted as fund 2xx for local budget law compliance. The history of individual grants is included in the budget detail section. Federal funds (e.g., Title I-A, Title II-A, and IDEA) in the form of entitlement grants are generally used to support licensed and classified staffing for special programs. Title I-A typically includes additional support for homeless students, academic interventions, professional development, and parent involvement. Title II-A funds are used to increase the number of highly qualified teachers in the classroom, highly qualified administrators, and to elevate teacher and principal quality through recruitment, hiring and retention strategies. Federal funding for Title I-A and Title II-A have decreased.

Individuals with Disabilities Act (IDEA) funding primarily supports educational assistants. Federal funding for IDEA has decreased.

Other grants include: High School Success (Measure 98), Student Investment Account (SIA), Creswell Education Foundation, Family Resource Center, Preschool Promise, Youth Transition Program, Kids in Transition to School, and several small targeted grants.

Facilities – This fund holds the local building excise tax collections, SB 1149 Cool Schools, and transfers from the General Fund. This fund is used for deferred maintenance projects.

Nutrition Services – This fund supports nutritious meals for students.

Vehicle Replacement – This fund is used for replacement of transportation vehicles.

Student Activity Fund – This fund is used to budget and monitor extra-curricular expenses and extra duty stipends.

Student Body – This fund is used to budget and monitor schools' student body funds – student money budgeted according to state law.

Scholarship – This fund holds various scholarship monies intended for students – awarded by high school staff and community members.

DEBT SERVICE FUND

The debt service fund rate for general obligation bonds is estimated to be \$1.92 per thousand with a repayment total of \$1,807,015. PERS debt service amounts to \$526,570, which is paid for by assessments on payroll.

PROPOSED BUDGET ALL FUNDS

The 2026-27 Proposed Budget, all funds, has been prepared in compliance with the Program Budgeting and Accounting Manual, Oregon Department of Education, Budget Manual for Municipal Corporations, Oregon Department of Revenue, and applicable Oregon Revised Statutes, Chapter 294.

The budget document contains the following funds:

Notes: Beginning July 1, 1997 property taxes were based on an assessed value. Assessed value is defined as the lower of maximum assessed value or real market value. For the 1997-1998 tax year, maximum assessed value was set at the 1995-1996 market value less 10 percent. Assessed value for later years is limited to 3 percent annual increases. The net levy is the actual imposed tax after adjustments and constitutional property tax limitations due to the passing of Measure 5 in 1990 and Measure 50 in 1997.

GLOSSARY

Accrual Basis

The basis of accounting under which transactions are recognized when they occur regardless of the timing of related cash flows.

ARRA

American Recovery and Restoration Act Federal stimulus funds that are general, IDEA or Title designated.

Average Daily Membership (ADM)

Year to date average of daily student enrollment. This can be ADMw or weighted for special additional factors and ADMr for resident membership.

Appropriation

A legal authorization granted by the school board to make expenditures and to incur obligations for specific purposes. An appropriation is usually limited in amount and as to the time when it may be expended.

Area of Responsibility

A division in the budget segregating specific types of programs within a function. Examples would be specific sports within the extracurricular function.

Assessed Value

The taxable value of real or personal property.

Assets

Resources owned or held by a government which have monetary value.

Budget

A plan of financial operation embodying an estimate of proposed means of financing them for a single fiscal year. A proposed budget is presented to the budget committee for approval. An approved budget is subsequently adopted as approved or modified by the school board.

Certified (Licensed) Employees

Includes teachers, counselors, speech and other licensed specialists.

Classified Employees

Support staff, including instructional assistants, clerical staff, bus drivers, custodians, maintenance and food service workers.

Confidential Employees

Administrative support staff. These employees are not in a collective bargaining group.

Contingency

Money allocated for use in case of emergency or to cover unforeseen expenditures. Boards must take action to approve expenditures of these funds in specific budget areas.

Expenditures

Decreases in net financial resources. Expenditures include current or future use of net current assets, debt service and capital outlay.

Fiscal Year

Twelve month period beginning July 1 and ending June 30.

Function

Major classification of expenditures.

FTE

Full time equivalent staff. One FTE is defined as a regular position scheduled to work eight hours per day.

GLOSSARY

Fund

A division in a budget segregating independent fiscal and accounting requirements. An entity within a government's financial plan designated to carry on specific activities or to reach certain objectives.

General Fund

The fund used to account for all financial resources except those required to be accounted for in another fund.

Governing Body

Elected school board.

Indirect Cost

A cost necessary for the functioning of the organization as a whole but which cannot be directly assigned to one service.

Liabilities

Debt or other legal obligation arising out of transactions in the past that must be liquidated, renewed, or refunded at some future date.

Modified Accrual Basis

All governmental funds and expendable trust funds are accounted

for using the modified accrual basis of accounting. Revenues are recognized when they become both "measurable" and "available to finance expenditures". Expenditures are recognized when the related fund liability is incurred.

Object

As used in expenditure classification, this term applies to the article purchased or the service obtained. Examples are salaried, employee benefits, utilities, contractual services, and supplied.

Operating Budget

Plans of expenditures and the proposed means of financing them. The annual operating budget is the primary means by which most of the acquisition and service delivery activities of a government are controlled. The use of annual operating budgets is required by law.

Payroll Costs

Amounts paid by the district on behalf of employees in addition to gross salary. Examples: contributions to PERS, social security, workers'

compensation and unemployment insurance.

Resources

Estimated beginning fund balances on hand at the beginning of the fiscal year, plus all anticipated revenues.

Revenues

Moneys received or anticipated by a local government from either tax or non-tax sources.

State School Fund

The major appropriation of state support for public schools. This fund consists of property tax loss replacement and state aid formerly called Basic School Support. The State School Fund is distributed to school districts according to a legislative adopted formula.

Transfers

Amounts distributed from one fund to finance activities in another fund. Shown as an expenditure in the originating fund and as revenue in the receiving fund.
